# SECRET DECODER

**What you need:** white cardstock, printer, scissors, hole puncher and paper fastener.

**What to do:** Cut out both circles. The circle with the numbers and the letters will be the bottom of your decoder. Use a hole puncher to punch out the two holes on the top circle (the one with Sparky on it). Put the circle with Sparky on top of the number/letter circle and then have a grown-up help stick the fastener through them both.
